Vision 2015

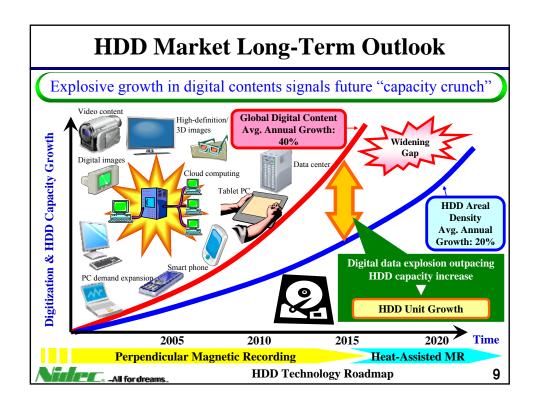

7

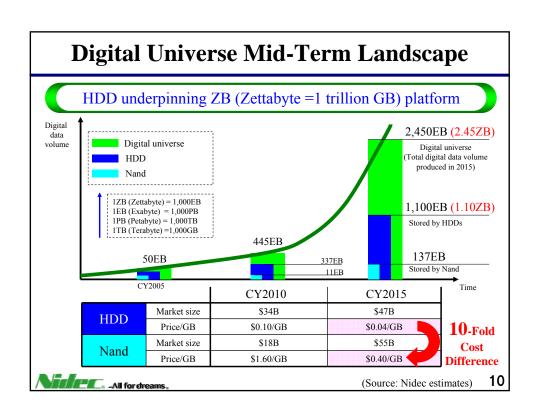

Business Environment and Strategy

- HDD motors will remain on growth track as ZB (zettabyte) platform takes hold. Competition points toward a showdown amid drastic industry consolidation, making technological strength the key for survival.
- Automotive motor business has completed highly localized manufacturing and sales network to meet the requirements from the rapidly globalized automobile industry. Growth is expected to accelerate through further expansion in emerging markets.
- Household and industrial motor sales are expected to expand through organic and M&A business growth, with strong focus on new applications and markets.
- M&A revolves around new technology acquisitions in developed countries and channel acquisitions in emerging countries.

Accounting Treatment of "Discontinued Operations"

Pursuant to FASB Accounting Statements Codification (ASC) 205-20, "Presentation of Financial Statements-Discontinued Operations," the results of discontinued operations have been reclassified and presented separately from those of continuing operations as "Loss from discontinued operations." The relevant prior-period statements have been retrospectively adjusted to reflect this reclassification.

Disclaimer Regarding Forward-Looking Statements

These presentation materials and the subsequent discussions regarding the Nidec Groups' financial results contain forward-looking statements including expectations, judgment, plans, and strategies. The forward-looking statements are based on management's assumptions and belief in light of the information currently available. Certain risks, uncertainties and other factors could cause actual results to differ materially from those discussed in the forward-looking statements. Such factors include, but are not limited to: fluctuation of currency exchange rates, overall supply and customer demand in the motor industry, product development and production capabilities, performance of affiliated companies, and other risks and uncertainties. Nidec undertakes no obligation to update forward-looking statements to reflect events or circumstances that occur after the date the forward-looking statements are made.
