October 24, 2019

Disclaimer Regarding Forward-looking Statements

These presentation materials and the related discussions contain forward-looking statements including expectations, estimates, projections, plans and strategies. Such forward-looking statements are based on management's targets, assumptions and beliefs in light of the information currently available. Certain risks, uncertainties and other factors could cause actual results to differ materially from those discussed in the forward-looking statements. Such risks and uncertainties include, but are not limited to, changes in customer circumstances and demand, exchange rate fluctuations, and the Nidec Group's ability to design, develop, mass produce and win acceptance of its products and to acquire and successfully integrate companies with complementary technologies and product lines. Please see other disclosure documents filed or published by the Nidec Group companies, including the Japanese securities report, for additional information regarding such risks and uncertainties. Nidec undertakes no obligation to update the forward-looking statements unless required by law.

The photo on the cover is "Electric Vehicle Lamination Press" for laminated motor core for EV manufactured by Nidec Minster. Electrical steel sheets used for motor cores are becoming thinner for the purpose of high efficiency (low iron loss), and this product adopts a super wide bolster of 3,700mm to support ultra-thin materials. A highly rigid frame minimizes distortion, and a highly accurate hydrostatic / dynamic pressure slide guide provides excellent ability to handle uneven loads.

Consolidated Profit/Loss

Millions of Yen, except for percentages, EPS and FX rates	1H/FY2018	1H/FY2019	Change	FY2019 Forecast
Net sales	755,447	751,277	-0.6%	1,650,000
Operating profit	96,168	62,207	-35.3%	150,000
<i>Operating profit ratio</i>	<i>12.7%</i>	<i>8.3%</i>	-	<i>9.1%</i>
Profit before income taxes	95,743	63,750	-33.4%	145,000
Profit for the period from continuing operations	76,737	48,705	-36.5%	-
Profit attributable to owners of the parent	78,428	27,561	-64.9%	100,000
EPS (Yen)	265.57	93.65	-64.7%	339.80
FX rate (Yen/US\$)				Assumed for Q3 onward: Yen/US\$: 105 Yen/Euro: 125
Average:	110.26	108.63	-1.5%	
Term end:	113.57	107.92	-5.0%	

Note: Based on the current forecast of sales volume, every one yen appreciation or depreciation against the U.S. dollar and the euro for FY2019 is estimated to have an annualized impact of 9.0 billion yen and 1.7 billion yen on net sales, respectively, and 1.1 billion yen and 0.4 billion yen on operating profit, respectively.

This slide includes forward-looking statements. See Disclaimer on Page 2. *Please refer to Notes on Page 21. 3

Summary of Q2 FY2019

- First-half net sales remain flat Y/Y and **the annual forecast remains unchanged.**
- First-half operating profit decreased by 35% Y/Y due to the additional R&D and start-up costs (approx. 8.5 billion yen) of traction motors which are in high demand, and to the additional acquisition related expenses of Embraco (approx. 3 billion yen) needed to promote the modularization strategy. On account of the above, **the annual forecast has been revised down.**
- First-half profit attributable to owners of the parent decreased by 65% Y/Y due to the loss (approx. 20 billion yen) related to the sale of Secop following the European Commission's instructions and **the annual forecast has been revised down. However, the annual dividend has been revised up by 5 yen to 115 yen.**

Mid-Term Strategic Goal

Vision2020

This section includes forward-looking statements. See Disclaimer on page 2 of this presentation.

11

■ **Vision2020:** Mid-Term Strategic Goal (unchanged from April 2015)

Continuous pursuit of profit & strong growth

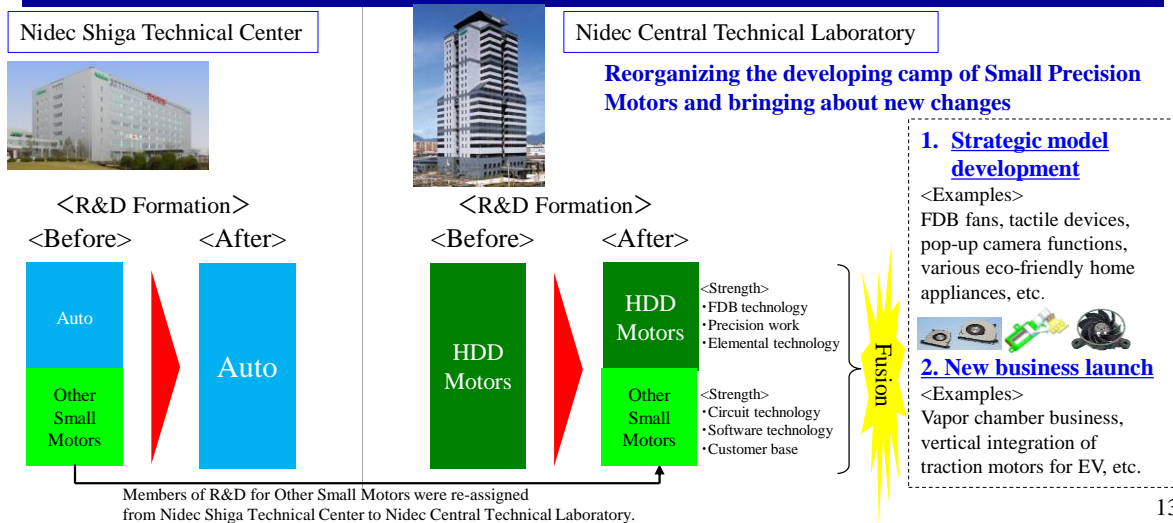

1. Target for consolidated net sales: 2 trillion yen
(including sales attributable to new M&A
of approx. 500 billion yen)
2. Sales target for Automotive: 700 billion to 1 trillion yen
3. Target for consolidated operating profit ratio: 15%
4. Target for ROE: 18%
(assuming shareholders' equity ratio of 60%)
5. Five regional HQ management units

This slide includes forward-looking statements. See Disclaimer on Page 2.

12

Small Precision Motor: Proactively Reforming R&D Function

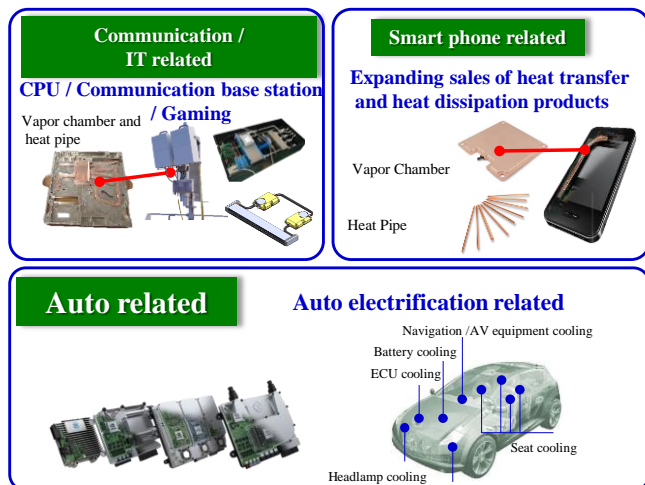

Unifying the strengths of HDD and Other Small Motors Facilitating strategic model development and new business launch

Fusion

Small Precision Motor: New Products for 5G (Thermal Solutions)

Three pillars of thermal solution products aiming for 100 billion yen sales in FY2022

<Sales target for new thermal solution products >
(Billions of Yen)

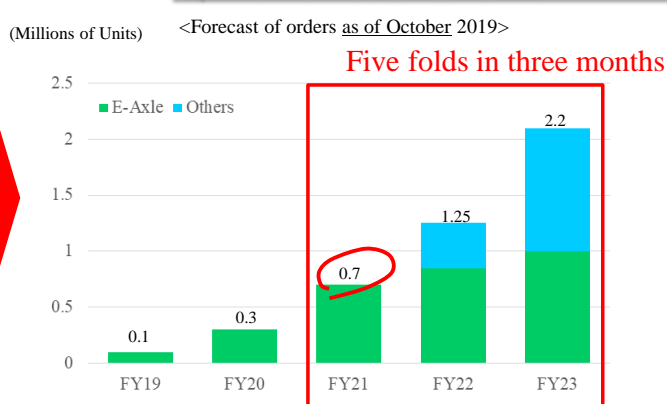

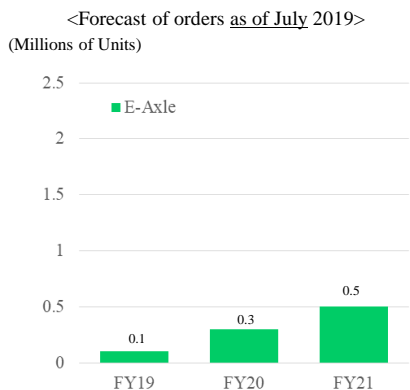

This slide includes forward-looking statements. See Disclaimer on Page 2.

Automotive: Further Progress in Traction Motor Order Intake Exceeding 1 Million Units per Annum

**Strong order intake for traction motors in competitive landscape
E-Axle remains the mainstream of orders while HEV motors for the European market also obtained**

Starting to take orders of traction motors for HEV from FY2022 in addition to E-Axle orders. Reacting quickly and proactively to capture all of the orders in EV/HEV/PHEV fields.

Nidec EV traction motor shipments

This slide includes forward-looking statements. See Disclaimer on Page 2. 15

Automotive: Target Share for Three Main Products

**Aiming to become number one in all three areas of the basic automotive functions
“Drive”, “Steer” and “Stop”**

<Drive>

Traction motors
(Estimated share as of today: 4%)

<Steer>

Electric power steering motors (DC Brushless)
(Estimated share as of today: 40%)

<Stop>

Next generation braking system motors
(Estimated share as of today: 50%)

*Aggregates of EV/HEV/PHEV

This slide includes forward-looking statements. See Disclaimer on Page 2. 16

Promoting new businesses by responding vividly to business environment changes

<Quarterly sales of air-conditioner business (North America)>

Increasing market share through implementation of high efficiency regulations and US-China trade tensions

<Quarterly sales of elevator business (North America)>

Package sales increase in North America backed by safety regulations of the NY State

Increasing demand for energy efficiency and sustainability in refrigerators which keep running 24/7

Embraco Brasil

Embraco Mexico

Roughly 80% of compressors are estimated to use A/C motors in the refrigerators globally

Replacement by brushless DC motors accelerating going forward

<Global refrigerator market>

Machinery: Growth Strategy of Nidec-Shimpo

High growth bolstered by steady organic growth through new product launches and product portfolio expansion through a series of acquisitions

<Annual Net Sales of Nidec-Shimpo>
(Billions of Yen)

<Press machinery business>

Organic

KYORI

MINSTER

ARISA

VAMCO

SYS

Nidec
PRESSES & AUTOMATION

M&A

All of the acquired overseas businesses performing well

Minster, above all, global No.1 press machine maker (85% global share) of food and beverage cans, is receiving increasing orders. This is due to plastic bottles being replaced by aluminum cans on the back of concern over plastic pollution.

<Speed reducer business>

FLEXIWAVE

CORONEX

Planetary reducer

MS-Graessner

DESCH

Notes:

Nidec Corporation adopts the provisions of IFRS 3 “Business Combinations.”

During the three months ended September 30, 2019, Nidec Corporation completed its valuation of the assets acquired and the liabilities assumed upon the transferring stock from Chaun-Choung Technology Corp. and the acquisition of MS-Graessner GmbH & Co.KG and relevant group companies in the previous fiscal year. Nidec Corporation’s consolidated financial statements for the year ended March 31, 2019 reflect the revision of the initially allocated amounts of acquisition price as Nidec Corporation finalized the provisional accounting treatment for the business combination.

5G Communications: New Addition to Nidec's Future Growth Drivers

Biggest innovative waves Nidec has ever seen are coming in different areas
-automobiles, robots, home appliances, drones, etc.-

Automotive electrification, EV and PHEV

-From internal combustion engine to electric motor
-Once-in-a-century technological revolution

Expansion of robot applications

-Collaborative robots advance into food, logistics and service industries.
-Rapid market growth

Next-gen technologies stemming from 5G communications

Hardware innovation coming with data rates 100 times faster

Data explosion

Home appliances driven by brushless DC motors

-Cordless and high functionality
-Innovative evolution of home appliances

Manpower-saving in agriculture & logistics

-Serious labor constraints
-Industry 4.0

Sales by Product Group (Apr-Sep FY2019)
