**The Four Machine Tool Companies of the Nidec Group to Exhibit Products at JIMTOF2024
- The Nidec Group’s Machine Tools and Cutting Tools Support the World’s Manufacturing Industry -**

Nidec Corporation (TSE: 6594; OTC US: NJDCY) today announced that the four companies of the Nidec Group (i.e., Nidec Machine Tool Corporation, Nidec OKK Corporation, Takisawa Machine Tool Co., Ltd., and PAMA S.p.A.) will exhibit their products at this year’s Japan International Machine Tool Fair (JIMTOF2024), one of the world’s four major machine tool fairs, to be held at Tokyo International Exhibition Center (Tokyo Big Sight) from November 5 – 10, 2024. Using a joint booth, the four companies will appeal their full lineup of products and technological capabilities.

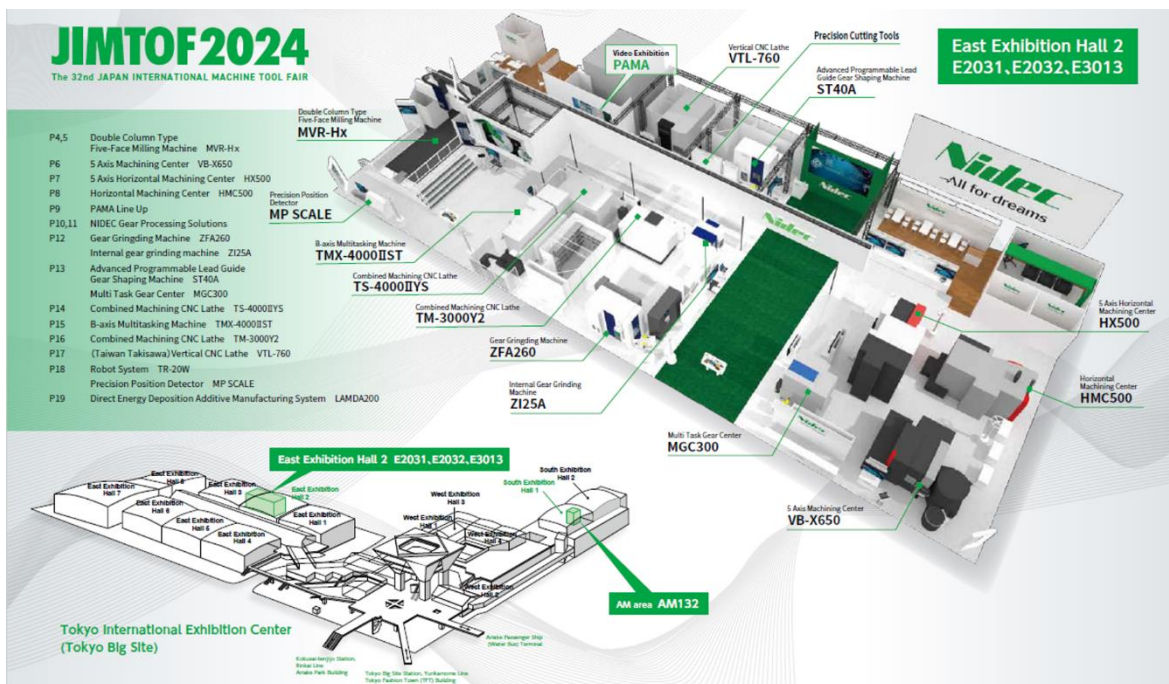

This year, with Takisawa Machine Tool Co., Ltd. (an Okayama-based lathe manufacturer that joined the Nidec Group last year) and PAMA S.p.A. (an Italian large-machine tool manufacturer known for its boring facing-and-drilling machines among other products), the Nidec Group will showcase the four companies’ new products as the world’s unprecedented comprehensive machine tool manufacturer, and propose solutions to social issues.

The companies’ exhibits will include (Please see the attachment for more information):

- Compound, multi-axis, and integrated lathes and machining centers to meet automation and manpower reduction needs;
- Gear-machining solutions that satisfy gear production needs ranging from rough processing to finish;
- Digital twin production system – an IT- and control technology-based manufacturing method for the future;
- “Going green” activities with cutting tools to support both productivity improvement and environmental load reduction; and
- Cutting-edge technology and applications of the metal 3D printer – a new machining method that will change the manufacturing process.

Special website: <https://www.nidec.com/jp/machine-tool/event/machine-tool-jimtof2024>

Booth numbers: Machine Tool Area – East 2 Hall (E2031, E2032, and E3013)
AM Area – South 1 Hall (AM132)

Based on the One Nidec policy, the Nidec Group’s machine tools utilize a variety of machine tools and cutting tools that meet the needs of auto, semiconductor, energy, aviation & aerospace, and many other industries in the world to offer best solutions for issues the manufacturing scene is facing.

The machine tool companies of the Nidec Group are:

- Nidec Machine Tool Corporation (<https://www.nidec.com/en/nidec-machinetool/>);
- Nidec OKK Corporation (<https://www.nidec.com/en/nidec-okk/>);
- Takisawa Machine Tool Co., Ltd. (<https://www.takisawa.co.jp/english/>); and
- PAMA S.p.A. (<https://pamamachinetools.com/en/>).
