

## Nidec Read to Exhibit Products at JPCA Show 2014

03/06/2014

We are pleased to inform that we will be exhibiting at JPCA, held in Tokyo Big Sight, 4th - 6th June 2014. Nidec-Read is going to introduce its primary products, continuity inspection systems for printed circuit board and semiconductor package and new range of inspection products corresponding to touch panel test and automotive components test.

We are looking forward to seeing you to provide our best solutions.

### [Products Line-up]

- Semiconductor Package Inspection System GATS-7530 / 7510
- Printed Circuit Board Inspection System STAR REC M6 II W / STAR REC M6 II SW
- High speed/Accuracy Tester R-5810
- Optical Inspection Systems RSH-S/D120C、 Rwi-300 etc.
- Fixtures MEMS Coaxial Fixture、 20um Probe Fixture、 Universal Fixture
- Touch panel Inspection Systems Film Roll to Roll model
- Automobile components Inspection System etc.

Venue : Tokyo Big Sight

Period : From June 4 (Wed) to 6 (Fri) , 2014

Booth : 4G-04
