

Nidec Read to Exhibit Products at 7th Int'l Automotive Electronics Technology Expo
17/12/2014

It is our great pleasure to inform that Nidec-Read is joining at 7th Int'l Automotive Electronics Technology Expo, held in Tokyo Big Sight, 16th -18st January 2015.

Nidec-Read is planning to introduce "TRL non-contact wire harness tester" and "Data logger by DEWETRON". More than that, co-development product, "Embedded camera module" and variety of test solutions for automotive components will be introduced on-site. Product demonstration will be prepared as well so that consider using the opportunity to find out excellent solutions for you.

We are looking forward to seeing you.
