### **■Concept for the exhibition**

Nidec group will exhibit at 21<sup>st</sup> International Engineering & Technology Fair (IETF 2015) in New Delhi, India from February 26-28 in Hall 14. In this show, Japanese companies, Japan as a partner country, will present the various range of technologies in the fields, such as Environment, Energy, Automotive, Rail, Infrastructure and others. Nidec group also presents the wide range of products and technologies in such fields. With our High-technology and Energy-saving technology, we can make a significant contribution to Indian government policy of "Reinforcement of electricity generation, and Optimized power distribution with the energy saving". Today, it is said that over 50% of world electricity is consumed by motors. Nidec group provides a total solution by using our Energy-saving products, such as Brushless DC motors, and those enable to decrease the energy consumption.
